ThermoShield

premium spa covers

Since 1983, Sunshine Products has produced the highest quality covers for spa and hot tubs. Using only the finest materials and a commitment to a highly tailored appearance, we strive to make each cover the best its spa has ever seen.

ThermoShield™ premium spa covers come in 4 varieties. All the ThermoShield covers feature:

- Tapered, EPS foam cores
- Especially-formulated marine-grade vinyl
- 4 locking tie-down straps
- Steel support beams
- Computer-controlled Heat-sealed vapor barriers.

ThermoShield™

4"x2" 1.25 lb. density foam R-16

ThermoShield XL™

5"x3" 1.25 lb. density foam R-20

ThermoShield plus™

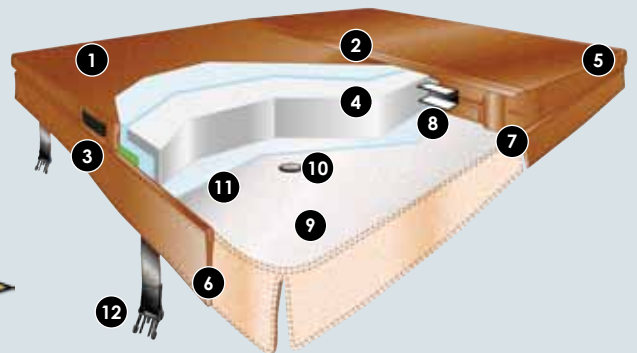

4"x2" 2.0 lb. density foam R-19

ThermoShield XL plus™

5"x3" 2.0 lb. density foam R-24

All ThermoShield models are manufactured in accordance with ASTM F1346-91 Safety Specification for Manual Safety Covers for Spas and Hot Tubs.

ThermoShield Standard Features

(1) **Premium Marine-Grade Vinyl** that has built-in resistance to chlorine, bromine, mildew & UV damage.

(2) **Four Layer, quadruple reinforced hinge** to help this most-worked part of the cover.

(3) **Tear-resistant reinforced handles** for easy opening and closing.

(4) **Tapered Expanded PolyStyrene (EPS) foam cores** that feature great strength with minimal weight and permanent insulation value.

(5) Expertly stitched with **UV-resistant SunGard industrial polyester thread**.

(6) **Customized Perimeter Skirt** that helps keep heat in and dirt out, while adding to the appearance of the cover.

(7) **Sealing, heat stopper pads** that eliminate heat loss through escaping steam.

(8) **Galvanized steel center support** to discourage bowing of the foam core.

(9) **Double-reinforced polyester vinyl spa liner** that is resistant to chlorine, bromine and mildew. Optional reflective and mesh materials available.

(10) **Weep holes** in the bottom of the cover allow condensed water to drain.

(11) **Heat-sealed VaporShieldPE plastic barrier** whose 1/4" wide, water-proof seal is made by a computer-controlled pneumatic heat-sealer.

(12) **Locking tie-down straps** featuring SURELOC fasteners.
